西貢健康安全城市社區安全報告2009

隨著西貢區迅速發展，本區住宅商舖林立，人口超過四十萬人。要確保區內的工作和生活環境舒適安全，便成了一個很重要的課題。

有見及此，自1999年成立「健康城市將軍澳」督導委員會以來，西貢區議會一直致力推動西貢區為健康及安全的社區。繼2004年成功加入西太平洋區的健康城市聯盟，成為其創會會員後，西貢區於本年六月獲世界衛生組織安全社區認證中心確認為「安全社區」。在此，本人謹代表西貢區議會，向各參與認證工作的政府部門、商業機構、學校、醫院及地區社會服務團體等表達謝意，並樂意透過《西貢健康安全城市社區安全報告2009》，分享與各社區夥伴在推動「安全社區」方面協作努力的成果。

「安全社區」國際認證只是一個起步點。展望將來，西貢區議會將持續與區內不同的組織通力合作，除了改善區內的環境，減少社區因意外受傷而需要承擔的醫療開支外，還會積極採取各項安全推廣策略，藉此匯聚西貢區居民及地區資源，建立共同目標，一起締造「西貢健康安全城市」。

西貢區議會主席 *Chairman of Sai Kung District Council*
吳仕福 SBS 太平紳士 **Mr. NG Sze-fuk, SBS, JP**

Sai Kung district has been developing rapidly, erected with many buildings for residential and commercial purposes. With a population exceeding 400,000, it is important to ensure a comfortable and safe working and living environment in Sai Kung.

As such, the Sai Kung District Council has been actively building the district as a healthy and safe community since the establishment of the "TKO-Healthy City" Steering Committee in 1999. Further to founding membership of the Alliance for Healthy Cities in the Western Pacific Region in 2004, Sai Kung has been designated as "Safe Community" by the World Health Organisation (WHO) Safe Community Certifying Centre in June this year. On behalf of the Sai Kung District Council, I would like to express my sincere gratitude to various Government departments, commercial corporations, schools, hospitals and local community service organisations etc. for their contributions in the process. I am grateful to share the positive outcomes of collaborating with our community partners in the promotion of "Safe Community" through this "Sai Kung Healthy and Safe City – Safe Community Report 2009".

International designation of "Safe Community" is just a starting point. Looking forward, the Sai Kung District Council will continue to collaborate with different parties in the district. Apart from improvement of the local environment to reduce medical expenditure caused by accidents and injuries, we shall also actively adopt various safety promotion strategies so that local residents and resources may be pooled together conducive to the common goal of building "Sai Kung Healthy and Safe City".
